How you can unlock the WELLTH Fund?

All you need to do to unlock the WELLTH Fund, is to complete a Health Check. Remember, we cover a yearly Health Check at one of our wellness partners in full for every member on your health plan.

A Health Check is a simple but helpful set of basic health screenings and preventive tests, which includes blood glucose test, blood pressure measurement, cholesterol test or lipogram, measuring your body-mass index (BMI) and doing a non-smoker's declaration.

Every member on your health plan who is above the age of two years old or older needs to complete a Health Check. Alternatively, you can complete an online Kids Health Review for your children aged 2 – 17 years.
